Birthday Cake Contest For 50th

Sponsored by the Vulcan Bakery, a cake baking contest will be held in conjunction with Vulcan's 50th Anniversary celebration June 29, 30 and July 1.

There will be two classes: an open class, chocolate layer cake, decorated; and a high school class, white layer cake, decorated. Entrants in the latter class must have attended a high school in 1962-63.

Judges will be Miss McLachlan, District Home Economist, and Alex Crane, Bakers' Technician, Canada Packers Ltd.

Prizes, donated by the Vulcan Bakery, are now on display in the bakery window. All cakes entered will become the property of the Anniversary Committee, to be used at the Oldtimers' Teas. The contest will be held at the Legion Hall on June 29, with entries to be in by 11:00 a.m. and winners to be announced at 2:00 p.m. the same day. All entrants will receive a free Canada Packers recipe book.

A widow is like a window. When a man gets near either of them, he wants to look out.

Seeing so much bearded material around town these days must have brought back nostalgic memories to Racille Ellis of the Champion district, of the days back in 1961. It was then that the Champion Golden Anniversary was being celebrated and husband George was among the many swarthy black-beards of that district, not

the smooth-shaven George of today. Mrs. Ellis submitted this photo of the male side of the Steve Fath family taken during the judging of beards at Champion, and she wonders if the four beards in one family is not something of a record. From left to right they are Phil, Robert, proud father Steve, Allan and Harvey.

Vulcan Lions

Three new members, Everett Hill, Harold Purdy and Angelo Murphy were inducted into the club recently by District Governor Wilbur Matlock.

A Zone Golf Tournament is slated for June 16, at Vulcan and is open to all clubs in the zone.

Weather

Light, scattered showers fell over many parts of the district Sunday and Monday, averaging one-tenth to one-quarter of an inch. In most cases, the moisture was insufficient to penetrate the ground more than an inch or two. Germination of wheat is reported to be very uneven and a good, soaking rain is urgently needed.

Congratulations On 80th

Some 200 friends and relatives of Mrs. Carrie McIntyre called Sunday afternoon and evening, May 12, to congratulate her on the occasion of her 80th birthday, when her son and daughter-in-law, Mr. and Mrs. Roy McIntyre, held open house in her honor.

A three-tiered decorated birth-

day cake, flanked by tall pink tapers in candleabra, and bouquets of carnations and shasta daisies provided a pretty tea table.

Guests were present from Lethbridge, Calgary, Edmonton, DeWinton, Strome, Ontario, Calif., Goldendale, Ore., Vancouver, High River, Claresholm and Three Hills

as well as those from Vulcan and district.

The guest of honor was presented with a beautiful orchid corsage by Mrs. Kathleen Doelling of Edmonton, who also brought the tea table flowers, and was also the recipient of many lovely gifts.

The dainty lunch was arranged by the members of Rose Leaf Rebekah Lodge of Milo and served by the nieces of the guest of honor, Reta Thomas, Bertha Webber, Irene Dupuis, Mildred Killoran, Ruth Pritchard and Florence Robbins. Tea was poured by four sisters-in-law, Mrs. W. J. McIntyre, Mrs. S. Cranston, Mrs. Peter McIntyre and Mrs. Nat McIntyre, and by Mrs. Frieda McRoberts, Mrs. L. A. Douglass and Gen. Sales. The guest book was in charge of Marilyn and Carolyn Webber.

Mrs. McIntyre received congratulations from the Honorable Percy Page, Lt. Governor of Alberta, from Premier Manning and from ex-prime minister Diefenbaker. She also received a telephone call from her grandson at Watson Lake, Yukon Territories.

Mrs. McIntyre came here as a bride with her husband, the late Alex McIntyre in 1906, and lived for many years on the present Roy McIntyre farm, where her three children, Les of Ontario, Calif., Mrs. Ted (Islay) Puckett, Vancouver, and Roy were born and raised. She has five grandchildren and one great-grandchild. The Advocate joins her friends in congratulations.

EASY TO ENVISION

The reason that we see through some people is that they make spectacles of themselves.

Pictured beside the new bus in front of the Vulcan County Amateur Radio Club headquarters from left to right are Doug Wilson,

Communications officer of Civil Defence; Ross White, vice-president of the radio club; Gene Moyer, president of the radio club

Bus Converted To Mobile Radio Use By Club

A joint effort by the Vulcan County Amateur Radio Club and Vulcan Civil Defence Unit, this vehicle will be available to provide communications from areas where facilities are not normally available, such as sports and race events, at lakes and rivers, major fires, accidents or disasters.

On Saturday May 25, the unit was used in Lethbridge to provide the facilities of a first aid post.

A self contained generator will

provide emergency power to operate the equipment consisting of three separate communications systems, which tie in with Amateur Radio networks and Civil Defence networks.

First Aid equipment will be carried so that the vehicle will provide communications control for the Legion Band Festival and parade.

Milo Sports Day and Race Meet will likely be next while on June 22, the club will be on a 24-hour

weekend communications workout in connection with American Radio Relay League field day activities.

Vulcan can expect to see the unit during the fiftieth anniversary celebrations.

July 20, will see the unit at Waterton Lakes to provide communications for the International Hamfest, an annual get-together of amateurs from the USA and Canada, alternating between Glacier and Waterton Lakes Parks.

Students Are Privileged, Says Speaker

Central High School Grade 12 Honored At Closing Exercises

RAYMOND A. SPEAKER

Social Credit candidate for Little Bow constituency in the forthcoming provincial election, Raymond Speaker of Enchant was elected over four other nominees at the Social Credit nominating convention held in Vulcan earlier this month.

Raymond Albert Speaker was born in 1935. He received his primary education in Enchant and received his B.E.d. degree from the University of Alberta. He has taught school for five years and is presently employed as a teacher at the W. R. Myers High School in Taber.

Ray is first vice-president of the Taber Junior Chamber of Commerce, and was president of the Social Credit Association in the newly formed Taber-Warner Provincial constituency.

The candidate's father, Mike Speaker of Enchant has long been a supporter of the Social Credit Party and was former president of the Taber Provincial constituency before it was broken up. Ray has had experience as leader of the party in the model parliament in University.

REVERSE DECISION

George: "So you proposed to your girl in the garage. What happened?"

Jack: "She wouldn't let me back out!"

"May misfortune follow you the rest of your days, but may it never catch up with you." Such were the good wishes extended Vulcan County Central High School Grade 12 students by guest speaker William Rae of Lethbridge Junior College at the Closing Exercises held Friday night, May 24.

Mr. Rae's message of guidance to the class climaxed a full program of vocal and instrumental selections by students and several short tributes and acknowledgements, all introduced by M.C. Doug Graham, president of Students' Union.

Entertaining the large crowd with musical selections were Carolyn and Dawna Haga, Carol McNiven and Cheryl Gooch, Margaret Ann Jamison, Linda Smith, Sandra Bloxham, Beth Wilson, Jackie Degenstein, Donna Pribe, Bill Tompkins and the High School Glee Club, directed by Mr. Omstead with accompanist Mrs. C. Johnson.

Attention was called by vice-principal Fred Cartwright to the large gold lettering on the walls as part of the decorations which spelled out CCHS. The letters stand for County Central High School, giving emphasis to the fact that since the beginning of the present term, the school with its student representation from throughout the County, has taken the name County Central rather than Vulcan High School. A large crest bearing CCHS was also displayed and the use of such jacket-sized crests was another innovation this year.

Acknowledgement was made of the work and time given by Dixie Jackson, teachers Don Green and Gordon Prusky in promoting school sports events during the past season.

Janice Hunter gave tribute to parents of the students who sacrificed much to provide education from youth to adult-hood of their children.

In his message of thanks to the community James Wilson said students had found all the essential facilities for recreation and sports in communities in the County to complement their outside interests during the school years.

A tribute to the teachers was

Wellman Leads In Herald District Golf

After the first 18 holes of the Herald Country Districts Golf Play-off held at Turner Valley on Sunday, May 26, Ray Wellman of Vulcan leads with a score of 73, followed by Don Djuve of High River with 75, Herb Berke of High River with 77 and Claire Schneider of Vulcan with 79.

A total of 12 district golfers from Vulcan, Staley, High River and Turner Valley took part. The next 18 holes will be played at Nanton next Sunday in conjunction with Nanton's opening tournament.

Jean Moyer won the Vulcan Golf Club Handicap tournament on Sunday for the UFA Co-op Trophy.

Merchants May Have "One Hour Specials" June 29

At a recent meeting of the Retail Merchants Section of the Vulcan and District Board of Trade, the merchants' part in the 50th Anniversary celebration was discussed. It was felt that the event should not be commercialized but that the advertising of one-hour "specials" which would be available from 10:00 a.m. to 11:00 a.m. on Saturday, June 29, would help encourage people to come to town earlier on that day.

Other suggestions were that store employees could dress in the style of 50 years ago, that the downtown area could be decorated with pennants and window paintings, that businessmen and store employees do not park their cars on the downtown streets that day and that a parade for children 12 years and under be held Saturday morning.

STICKS TO THE END

Larry: Pete has been fired from every job he's ever had."

Joe: "Well, we can't call him a quitter."

Watch Trees For Beetles - Spray DDT

An infestation of poplar, willow and elm trees by grey willow leaf beetles is stripping these trees of their leaves in almost all parts of the County.

These beetles migrate in large numbers and may fly long distances to settle en masse on farm shelterbelts and shade trees. The infestation may last well into July, particularly in willow trees. Trees that have been weakened because of the drought may be killed as the result of losing their leaves.

The best control measure is the use of DDT. It should be applied as a spray, using emulsible concentrate DDT 25%, at the rate of five teaspoonsful per gallon of water or two quarts in 100 gallons of water. A close watch should be kept on the trees as they become re-infested, necessitating further spraying.

Premier Manning Here June 5th

Hon. Ernest C. Manning, premier of Alberta, will be featured speaker at a public meeting in the Vulcan Lodge Hall, Wednesday, June 5, at 2:00 p.m.

Sponsored by the Little Bow Social Credit Association, the meeting will also be addressed by Raymond Speaker of Enchant, Social Credit candidate for Little Bow in the forthcoming provincial election.

with a net 18-hole score of 62.

The mixed two-ball tournament at Vulcan scheduled for next Sunday, June 2, will be postponed for one week—until June 9—to enable the Vulcan golfers to attend the Nanton tourney.

Guest speaker Wm. Rae of the County Central High School. Seated behind him is Bill Tompkins who addressed the large crowd at a high point on the program.

The immediate family presented their father with a reclining chair and a number of floral tributes were received, including a lovely bouquet from the Hub Store staff. Most of the seeding has been completed in the district and summerfallowing is well underway. Some grasshoppers are hatching and many people have had to spray their popular trees as it was found this week that they were infested with a small sucking beetle that was destroying the foliage.

KUNKEL — BECKNER

The Milo United Church was the scene of a pretty afternoon wedding on Saturday, May 25, when Miss Karen Margarite Beckner, only daughter of Mr. and Mrs. Dana F. Beckner of Majorville and Robert Norman Kunkel, only son of Mr. and Mrs. Norman Kunkel of Armada were united in marriage before an altar banked with gold chrysanthemums and pink and white carnations and snapdragons. Rev. Donald A. Sharpe of Vulcan officiated.

The bride, given in marriage by her father, wore a floor-length gown of white misty nylon sheer, featuring a bouffant skirt with bow in back with traditional long lily-point sleeves. The sweet-heart neckline had lace appliques embroidered with crystalline sequins. Her only jewellery was a pearl necklace, a gift of the groom. Her shoulder-length veil was held in place with a sequin and pearl

tiara. She carried a white Bible, a gift from her father topped with a mauve orchid and ribbons of minute rose-buds.

The matron of honor was Mrs. Irene Kimele, sister of the groom. Miss Lynne Godkin and Miss Judith Willard were bridesmaids. They wore identical dresses in pastel shades of green, coral and beige, with matching shoes and gloves. Their picture hats were of brown coppersone organza and they carried bouquets of white carnations sprayed in coppersone and tied with matching ribbons.

The groom was attended by William Sealock. Ushers were Clifford Beckner and Leonard Kimele.

Mrs. Sharpe was organist and accompanied Miss Judith Willard who sang, "The Lord's Prayer," during the signing of the register.

For her daughter's wedding Mrs. Beckner chose a delphinium blue jacket dress with which she wore white accessories. Her corsage was a gold orchid. Mrs. Kunkel, mother of the groom, wore a grey floral silk dress with white accessories and a mauve orchid corsage.

Misses Marilyn Durstan and Silvia Will were in charge of the guest book at the reception which followed in the Milo Hall. The hall was decorated with pink and white streamers and bells. The bride's table was centered with a three-tiered wedding cake flanked with pink candles.

Rev. Sharpe was master of ceremonies. John Papp proposed the toast to the bride to which the groom suitably responded. William Sealock proposed the toast to the bridesmaids.

The wedding party and many of the guests then motored to Armada where a wedding dance was held in the evening, following which the happy couple left for their honeymoon.

"With gas you get service — no doubt about it"

"Any time I have had dealings with the Gas Company they have certainly made every effort to provide satisfactory service."

When you are the only Gas Company serving the residential customers in a community, the responsibility to give good service is great. Canadian Western is very conscious of its responsibilities to give good service and extend service to new communities where it is economically practical.

We must also plan ahead so there will be plenty of natural gas for the future — and in all this, carefully control costs so we can continue to provide Alberta gas consumers — large and small, with the best possible gas service at the lowest possible cost.

Canadians are eating more fish. From the current issue of Food In Canada comes the news that Canadians are stepping up their consumption of fish.

With higher meat prices last year, many housewives apparently turned to fish as a lower priced substitute. As a result, frozen fish sales jumped by more than 10% in the first ten months of 1962. Frozen sea fish products fared even better than inland fresh water products, with sales up about 13%.

How often is fish served in your home? Most of us include canned salmon or tuna in our menus. Have we forgotten the availability of fresh and frozen salmon, halibut, sole, or cod?

Because fish spoils rapidly, care should be taken to serve it as soon as possible after purchase. When fresh fish is purchased, remove the wrapper and wipe it with a clean, damp cloth. Wrap it in wax paper, place in a tight-

ly covered container to prevent transfer of odours, and store in the refrigerator. If the fish is whole, eviscerate it immediately and store it in the same way.

Frozen fish should be kept solidly frozen in the unopened package. Once the fish has been thawed it must be used quickly. It is not advisable to re-freeze fish that has been thawed. The flesh of fish which has once been frozen is more susceptible to spoilage bacteria than fresh fish. Refrigerated fish has lost its juices therefore will be a tough product with little flavor.

Smoked fish should be handled and stored in the same way as fresh fish. The smoking process is used only to enhance the flavor and is not sufficient to preserve the fish but merely retards spoilage.

When purchasing fish you'll want to count on about 1/2 lb. per person of fish fillets or other boneless cuts. If the fish is bony, or if you are planning to stuff and bake a whole fish, count on buying 3/4 to 1 lb. per person.

Foster Parents And Adoption Needs Stressed

At a special meeting of the CWL Thursday, May 23, George Spence and Mr. Hill of the Child Welfare and Adoption Agency, Calgary, spoke to a good number of members and their husbands of the Vulcan and Champion parishes.

Mr. Spence traced the origin of adoption from the time of Moses to the present day when a special effort to place children in the best possible environment is made. The procedure is quite simple—applications are made to the Dept. of Public Welfare, a welfare worker visits the prospective parents and sends his report recommending the family. He stated almost any average normal family who are willing to make a child welcome and able to give emotional security, proper housing, education, etc. can adopt a child.

Seventeen hundred children were made wards of the government last year, 70% of these being babies given up for adoption by unmarried mothers. Three hundred children of mixed blood are not being readily adopted into Catholic homes. Mr. Spence also stated there were several Protestant children available for adoption from nine to ten years and from birth to a year and a half. He closed his address with the observation made by an adopted parent, "Blood is strong but love is stronger."

Mr. Hill, in speaking of foster children, stated there were two categories, temporary wards (not in excess of a year) and permanent wards (those available for adoption). There is a great need for foster homes in the province and the age limit for foster parents is much more flexible than for adopted parents. The remuneration is \$1.20 a day for babies and up to \$2.00 per day for older children with a monthly clothing allowance and an additional allowance for spring and fall necessities. Foster parents are also provided with a medical card and any necessary drugs are also provided.

"Ten Catholic boys over the age of 13 are in need of foster homes", Mr. Hill told the group.

A question period followed with both speakers contributing interesting points of discussion.

Anyone For Canyon Meadows?

The annual assault on an outside course by a bus load of Vulcan golfers is set to go again on Monday, June 3. This year about 40 boys will tackle the Canyon Meadows course at Calgary. Loading time is 6:45 a.m. at the local clubhouse and there's still room for a few stragglers on the bus. Glen Gorbous is the man to see.

Lionettes Elect New Officers

The Lionette held their May supper meeting in the Vulcan Cafe with 17 members and a guest present.

Election of officers resulted as follows: President, Hannah Matlock; 1st vice-president, Ruth Richardson; 2nd vice-president, Jerry Snow; 3rd vice-president, Rose Munro; secretary, Ruth Dann; treasurer, Betty Roebuck; tail-twister, Lil Klippert; directors, Mildred Marshman and Eileen Haga.

The float for the anniversary parade was discussed at length with Lionette Helen Giles as chairman. Saturday was voted as the best day for the Lionettes to take over the information booth for the three-day celebration.

The next meeting, Monday, June 24, will be the annual golf day with June Wellman as hostess and Betty Roebuck and Alice Scales as assistants.

The business was then closed and the remainder of the evening was spent making flowers for the float.

THE BEST TIME TO
BUY
THE LOW-PRICE, TOP-QUALITY
CHEVY II

Why now? What's the rush? Well, we just want you to have your Chevy II for the summer — for doing all the picnicking, swimming and travelling you've been looking forward to all winter. Sure, you say, a new car would be nice, but... Well, there are no "buts" about Chevy II. The ride and room are strictly big league. The handling is sure and easy. And when you're on the open road, you'll wonder where all those horses came from. (There's 90 horsepower in The Super-Thrift Four; 120 in The Hi-Thrift Six.) Thinking about the money? So is Chevy II. That's why you get self-adjusting brakes, long-life exhaust system, extensive rust-proofing, water-flushed and air-dried rocker panels and a battery-saving Delcotron generator as standard equipment at Chevy II's remarkably low price. And don't forget, you can also take your pick from a dozen different models—from the snappy Nova 400 Super Sport Convertible to the oh-so-practical 100 Series sedans and station wagon. GRASSHOPPER CONTROL POLICY — 1963

The Alberta Department of Agriculture is prepared to supply three different chemicals to counties, municipal districts and improvement districts in spray form at cost for resale to farmers on the following basis: Dieldrin — \$5.00 per gallon; Malathion — \$10.00 per gallon; and Dimethoate — \$12.00 per U.S. gallon.

The forecast indicates a wide spread outbreak will likely occur in the east central part of the province and will extend farther north than in 1962. The forecast for the County of Vulcan indicates a light infestation. However, some local hot spots may occur where little control was practised in the past several years. Early cultural control and chemical treatment is recommended as a means of reducing cost with greater effect and reducing the danger of residues on the crop at a later date.

Dieldrin must be used according to recommendations for effective control without contamination of food and feed. This chemical cannot be used on forage or pasture to be eaten by milk cows or animals being fed for slaughter within the next year. It can only be used on cereals up to the shot blade stage of growth.

Malathion can be used on forage for milk cows and animals going to slaughter without any wait period. The cost per acre is 50 cents as compared to 16 cents for Dieldrin.

Dimethoate spray can be used on cereals up to the shot blade, but a waiting period of 48 hours must elapse before livestock may be fed on treated forage. This applies to all classes of livestock. The cost is 40 cents per acre when sprayed at the rate of two ounces when hoppers are young and 60 cents per acre for a three ounce rate when hoppers are mature or over one-half inch in length.

Declaration Form for Dieldrin
To emphasize the need for proper use of Dieldrin each purchaser must read and sign a declaration form that the spray will not be used on forage or pasture to be eaten by milk cows or animals going to slaughter within the next year. No Dieldrin will be sold after the crop reaches the shot blade stage of growth. There is no tolerance allowed for Dieldrin residues in dairy and meat products. Therefore, every producer must be

warned against any misuse of this chemical.

Samples of butter and cream will be checked periodically by the Food and Drug Division for pesticide residues. If tests indicate the presence of Dieldrin, the butter may be confiscated and legal action may be taken against producers whose cream went into the manufacture of that particular churning. It is, therefore, imperative that every precaution must be taken to prevent contamination of food.

MOUTH TO MOUTH RESCUE BREATHING

... the approved easy method of artificial respiration

If victim is not breathing due to drowning, suffocation or electrocution, begin artificial respiration at once. Wipe out any foreign matter visible in the mouth, using your fingers or a cloth wrapped around your fingers.

Tilt victim's head back. Pull or push the jaw into a jutting-out position, thus creating direct air passage to the lungs. If the mouth (or jaw) will not open, seal the mouth and blow air into the victim's nose.

Open the victim's mouth, cover his mouth with your mouth, pinch his nostrils shut, and blow vigorously about 12 times a minute. If victim is a small child, place your mouth tightly over his mouth and nose and blow gently into his lungs about 20 times a minute.

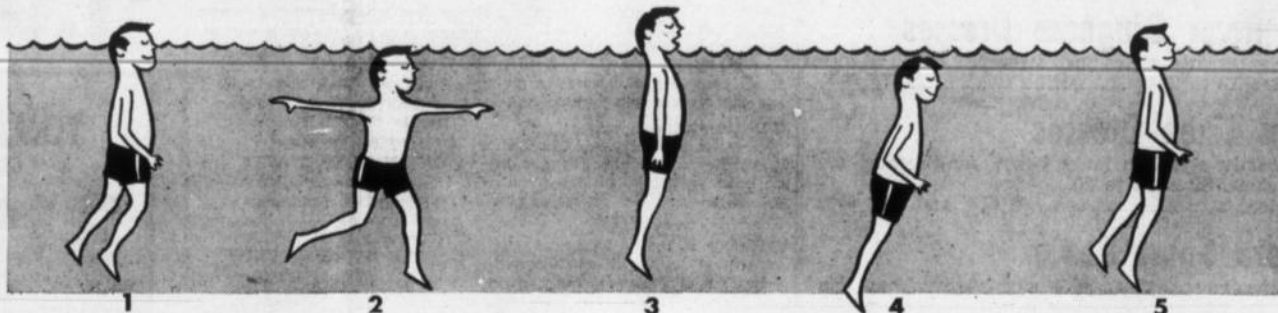

If victim's chest does not rise, there may be foreign matter in his throat. If a small child, suspend him by the ankles or place the child in a jack-knife position with your arm under his stomach. Slap him sharply between the shoulder blades. Continue rescue breathing (mouth to mouth resuscitation.)

If victim is an adult lie him on the ground in a jack-knife position and slap him sharply between the shoulder blades. Continue with rescue breathing until help arrives.

Practice this method of ...

EASY-TO-LEARN SURVIVAL FLOATING

Here is a proven method of staying afloat when in difficulty. It is easy to learn and takes advantage of your body's natural buoyancy to keep you afloat for hours. Practice these step-by-step instructions - they can save your life!

1. Take a deep breath and float vertically, chin forward close to chest. Relax completely and you will find you can hold your breath comfortably from 5 to 10 seconds. The back of your head will break the surface of the water.

2. Prepare for slow downward push by raising the arms to shoulder level, palms

down, one leg extended forward the other backward. Begin exhaling through the mouth. Lift face gently out of water as you continue exhaling.

3. Eyes open, inhale through mouth as you push slowly downward with both hands. Do not waste energy by trying to raise shoulders above water.

4. When lungs are full, slide under water. As your head sinks under water continue slow downward movement of arms and/or legs to prevent sinking too deeply.

5. Now you are back at the Number 1 position. Practice will enable you to continue the cycle for hours.

given by Marilyn Hubka who felt students should pay respect for the patience and steady guidance shown them by the teaching staff through the years.

Evidence of the interest and respect for the senior class was shown, said Bill Soder, in his tribute to them, by the number of parents, adults and under-graduates who gathered in their honor on this occasion.

In his efforts to place the vital need of education in today's world, squarely before his audience, guest speaker Mr. Rae said, "We must use our God-given intelligence in a world full of talk of atomic danger and in a danger greater than the atomic bomb." It is a danger of over-population in the world, said the speaker. He termed as rubbish, the idea held by people that the world can produce enough food for its inhabitants and this grave problem needs the help of educated people to solve.

Coming to the local scene Mr. Rae gave four points which emphasized the fact that students are a privileged group. He said they live in a free democratic country which has freedom of education; where education is held at the height that it finds here; where parents are interested in education and in the case of the senior students there is demonstrated, an ability to absorb education. Only one-third of all students who start Grade one, get to Grade 12, said Mr. Rae. Drop-outs are attributed to many causes, among them a low IQ, and in some case technical training interest.

The students were told that with privileges go responsibilities such as personal characteristics of honesty, responsibility to family, and to the community. The sharing of talent and ability is where people gain, said the speaker. "We don't really love the people who give us things" but the reverse is true, "Our greatest love is in giving things ourselves."

Responsibility to our country is of great importance, said Mr. Rae. A country's strength lies not in its raw materials, or its wealth but in the strength, education and character of its people.

Finally a responsibility of our generation rests with conduct and solving of world crises which presently face mankind. Mr. Rae said the League of Nations is dead and the UN is in trouble. If it fails we will have to rebuild it. Only an educated world can meet these problems.

Following the program a well-attended dance was held with music supplied by Pickersgill's Orchestra. Continuous lunch was served 'till midnight.
